Full spectrum Delta 9 THC + CBD

 **epicube**

UNWIND

When you just need to be free from the world.

WHAT IS D-9

D-9 THC is the main psychoactive component found in Hemp, and it is known to have several potential therapeutic benefits.

The 2018 Farm Bill legalized the production and sale of industrial hemp and hemp-derived products in the United States, including those containing delta-9-tetrahydrocannabinol (THC) at a concentration of no more than 0.3% on a dry weight basis. This means that hemp products, including those containing delta-9-THC below the legal limit, are no longer considered controlled substances under federal law.

Three Spa Affect

Pain Relief

Anti-Inflammatory

D-9 THC may help alleviate chronic pain and reduce inflammation in the body. It is believed to work by interacting with the body's endocannabinoid system, which helps regulate pain and inflammation

Anxiety

Anxiety Relief

D-9 THC may help reduce symptoms of anxiety. It is thought to work by binding to receptors in the brain that are responsible for regulating mood.

Better Sleep

Improve Sleep

D-9 THC may improve sleep by interacting with the body's endocannabinoid system, which helps regulate sleep and wake cycles. Research suggests that D-9 THC may have sedative properties, making it potentially useful for people with insomnia or other sleep disorders.

PAIN RELIEF

Anti-Inflammatory

One way that D-9 THC may act as an anti-inflammatory is by inhibiting the production of pro-inflammatory cytokines, which are signaling molecules that contribute to the inflammatory response. A study published in the European Journal of Pharmacology found that D-9 THC reduced the production of several pro-inflammatory cytokines in animal models of inflammation.

ANXIETY

Anti-Anxiety and Anti-Depressant

One way that D-9 THC may act as an anti-depressant is by increasing the activity of the brain's reward system, which is involved in experiencing pleasure and motivation. A study published in the *Journal of Psychopharmacology* found that D-9 THC increased activity in the brain's reward system in response to positive stimuli, such as pleasant music or pictures. This effect may help alleviate symptoms of depression, which can include a loss of interest or pleasure in activities.

SLEEP

Promotes Better Sleep

One way that D-9 THC may improve sleep is by reducing the time it takes to fall asleep. A study published in the Journal of Clinical Psychopharmacology found that D-9 THC reduced sleep latency, or the time it takes to fall asleep, in people with insomnia. The study also found that D-9 THC increased total sleep time and decreased wakefulness during the night.

The Market

Pain Relief

Anti-Inflammatory

An estimated 20.4% of US Adults (50 million) have chronic pain and 8.0% of US Adults (19.6 million) have high-impact chronic pain

Anxiety

Anxiety Relief

An estimated 31.1% of US adults experience any number of anxiety disorder in their lives. .

Better Sleep

Improve Sleep

Roughly, 1 in 3 adults worldwide have insomnia symptoms

THE MARKET

2022 State sales in Cannabis

California	5.3 Billion
Colorado	1.8 Billion
Florida	1.5 Billion
Nevada	965 Million

THE OPPORTUNITY

Retail Pay

Team Pay

Retail Pay

- Earn 50% on all Retail Sales
- Paid the next day

Team Pay

- Unilevel Pay
- 5% level 1
- 25% level 2
- 10% level 3

- Everyone gets paid 1-3

- 5% Gen. 4 5G/5K monthly vol
- 5% Gen. 5 10G/ 10K monthly vol
- 5% Gen. 6 25G/ 25K monthly vol
- 5% Gen. 7 50G/ 50K monthly vol
- 5% Gen. 8 100G/100K monthly vol

EARN REWARD TRIPS

Quarterly reward trips

(rank determines how much is paid by company)

Annual TOP G trip (Bali)

(top 10 Income earners)

Retail Pay

- Earn 50% on all Retail Sales
- Paid the next day
